Concussion Management

Concussion treatment and management is at the forefront of the sports world and the medical community. For years, the physical Therapists at Restoration PT have been working with local physicians in the treatment and diagnosis of concussions and headache related issues. The treatment you receive will vary by the type of symptoms you report - but in most cases we are able to offer *immediate relief* of pain, dizziness and nausea. We have provided relief to hundreds of patients struggling with the pain and agony of concussions and concussion related symptoms.
